

UpToDate® Delivers Powerful Features

UpToDate is one of the most widely used clinical information resources in the world. UpToDate provides unbiased, continuously updated, evidence-based clinical information, an intuitive user interface, and powerful features that enable physicians to make diagnoses, create treatment plans and share information quickly and efficiently.

Use the find tool to search for a word or synonym within a topic. (Callout to the search bar)

Access patient information to share with your patients. (Callout to the Patient icon)

Print text, references, graphics or the entire topic. (Callout to the Print icon)

Submit questions and comments to our editors. (Callout to the FEEDBACK link)

Email topics to your colleagues. (Callout to the Email icon)

Learn "What's New" in your specialty since the last release. (Callout to the What's New tab)

View a detailed outline within each topic. (Callout to the TOPIC OUTLINE sidebar)

Click on a heading to go directly to the information you need. (Callout to a sub-heading in the sidebar)

Review treatment recommendations. (Callout to the TREATMENT section in the sidebar)

Link to graphics and tables relevant to the topic. (Callout to the GRAPHICS section in the sidebar)

View the date when the topic was last updated. (Callout to the 'Last literature review version' text)

Link to information about authors and editors. (Callout to the Authors and Section Editor names)

Access related topics to find additional information. (Callout to a link in the text)

Click to view a Medline abstract. (Callout to a link in the text)

Provide valuable feedback. (Callout to the 'Help improve UpToDate' survey)

Emergency Medicine
Psychiatry
Surgery

Comprehensive Features

UpToDate is committed to innovation and value, so we are continually making enhancements that will help clinicians provide better patient care. Here are just a few of the features we've added over the past 15 years:

- **Optimized search capability** enables you to search with multiple terms to find quick answers to your clinical questions in over 7,700 topics.
- **Over 5,000 graded treatment recommendations.**
- **Medline abstracts** provide access to over 260,000 references with links to full text articles.
- **Text, graphics and abstracts** are included in *UpToDate's* 80,000+ pages.
- **Drug database and drug interactions database** (in partnership with Lexi-Comp®) include over 4,600 adult, pediatric, international and natural drugs and allow clinicians to check for potentially dangerous drug-to-drug, drug-to-herb, and herb-to-herb interactions.
- **Calculators** provide access to more than 80 medical calculators, eliminating the need to remember formulas or use separate devices.
- **"What's New"** provides a summary of important new findings by specialty since the last release.
- **Patient Information** includes over 400 topics written specifically for patients.
- **Email** topics to your colleagues or patients.
- **Use feedback button** to submit questions and comments to our editors.

COMPLIMENTARY 60-DAY TRIAL

Evaluate *UpToDate* for your institution with our complimentary 60-day trial, which provides users with direct access.
